

The unique combination of research, entrepreneurship, education & healthcare

The Utrecht Science Park forms a unique knowledge concentration in the world. It is a strong ecosystem, due to the combination of and cooperation between educational and healthcare institutions, research institutes and R&D companies. The Utrecht Science Park leads the world in research into cancer, cell and gene therapy, regenerative medicine, immunology, organoids, planetary health and future food, among many other fields.

Events and facilities

Networking events

Networking meetings, open days, tours and presentations.

Scientific events

An example is the Utrecht Science Week. This event offers a very varied programme including lectures, debates and guided tours in the fields of health and sustainability.

Sports events

The start and finish of many sports events take place here, including the Utrecht Marathon and the Giro d'Utrecht.

Facilities

Sports & recreation, housing, catering & shops, meeting and event venues, childcare and medical facilities.

Organisations & institutions

Knowledge institutions and hospitals

One of Europe's **leading** research universities.

The place where **education, research and business** come together.

One of the **largest** public healthcare institutions in the Netherlands.

Europe's **largest** centre for paediatric oncology.

Research institutes

Leading institute working for **human and animal health** and a healthy living environment.

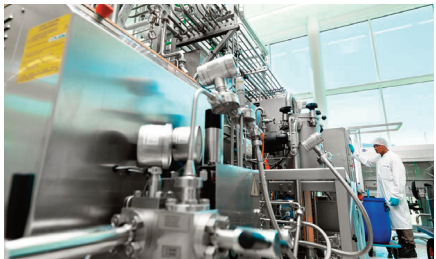

Leading mycological research institute with the **largest fungal collection** in the world.

One of the world leaders in **stem cell research**.

Creates impactful innovations for the **sustainable well-being** and prosperity of society.

R&D companies and other organisations

Leading international biotech company specialising in antibody therapies for the treatment of cancer and other serious diseases.

Innovative biotech company, globally active, focused on developing multi-specific antibody therapies in the fight against cancer.

Does **pioneering research** into nutritional solutions, among other things.

One of the few sites in the world where **polio vaccines** are developed.

Unique R&D company due to its focus on **genetic diagnostics**.

Is in the global **top 10** of university-linked incubators.

And more than 150 other organisations & institutions

The power of Utrecht Science Park

Welcome to the Utrecht Science Park. This is an innovative science community that aims to accelerate the development of a healthy, sustainable society. With more than 31,000 employees and 55,000 students, Utrecht Science Park is the biggest science park in the Netherlands.

Together with two satellite locations, Utrecht Science Park Bilthoven and Utrecht Science Park Zeist, we work to develop and apply cutting-edge science and solutions to major societal challenges in the fields of life sciences, health and sustainability.

Central location

The Utrecht Science Park is centrally located in the Netherlands and has excellent accessibility:

Bicycle

Daily 25,000 cyclists along the world's longest rainbow cycle path.

Public transport

Quickly accessible by tram and bus from Utrecht Central Station, the largest railway station in the Netherlands.

Car

Located by the A27 and A28 highways and features a large car park, the P+R Utrecht Science Park, with 2,000 parking spaces.

Schiphol

Schiphol, Europe's best connected airport, can be reached by train from Utrecht in 30 minutes.
